

Information about the Service

NBN™ Internet and Home Phone Bundle Description – Our VoIP

telephone plans can be bundled with our NBN™ Internet Service utilise nbnCo™ infrastructure (FFTP, FFTB, FFTN, FTTC or HFC) fibre broadband to improve the way you connect with others. It is designed to provide everyone with high-speed internet access.

Included features The Internet and VoIP Phone Plans include the following monthly benefits:

- No Excess quota usage charges
- 10 email addresses
- Awesome Speed
- Email protection
- Personal Web Space
- Awesome Local Customer Service

Availability & System Requirements –

Coverage extends to a growing number of areas across Australia. You can determine your availability using our service qualification tool at

www.esc.net.au/nbn

Equipment needs – You need an approved compatible router to use this service. You may choose to bring your own (BYO) or we recommend that you purchase one of our approved pre-configured router/modems for an additional fee of \$169(including \$24

postage fee).

FFTP/FTTH, FTTC and HFC – an eWAN Wifi Router is recommended for Wi-Fi coverage. FFTN and FFTB – VDSL2 Modem Router is required for the service to work.

Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility.

Is this a Bundle Service? - This is a bundle service available to consumers that have an active nbn™ plan as listed below and VoIP enabled router.
